

FOR SELL SUZUKI BRAND NEW.....2011 SUZUKI GSXR750

Киров, Россия

The new 2011 GSX-R 600/750 race bodywork was developed with Team Hammer, racing as M4 Suzuki, for their factory supported race bikes as raced in AMA Sportbike. Our sponsorship of the M4 Suzuki team, allowed us to bring this exclusive "Factory Type" race bodywork to the consumer. It will only be available through Hotbodies Racing, until somebody copies our product... don't accept a copy, get the real deal direct from us!

Additionally, our new in-mold color process, shown to the right in Gloss White, was developed in part with Kawasaki North America for their Accessories Catalog. Now you can get that an easily polished high-gloss finish right out of the box and not have to spend hundreds extra on a paint job! While it's no substitute for a professional paint job, at five feet away with your sponsor decals on it, or 100mph on the race track, you would never even notice its wasn't painted!

Features:

- * 100% Customer Satisfaction Guarantee!
- * Lightest bodywork available on the market.
- * Four-harness fiberglass fabric for extra durability.
- * Ultra Flexible for easy installation.
- * Kevlar reinforced mounting areas.
- * Finished in an automotive grade urethane primer;
- * Light Gray on the outside, black on the inside.
- * Contingency paid in EVERY race club in the USA.
- * AMA/WSBK Spec oil containment belly pan.
